

How We Program the EMF Resonance Shields You Can Now Understand Energy

Part of our purpose is to help you gain knowledge by telling you what we do and why we do it. That way, you can have an understanding of how things work and you can understand energy at an uncomplicated level – how we use it, how it is in us and how it applies to our daily lives.

When we produce the Safe Connect Plus+ Shields, with 21st century equipment and computer software, we expose the material we use to create our shields to a very potent energy field in an elaborate computerized energy chamber. This process of moving energy and particles along in a type of flowing pattern happens over a certain amount of time designated by our qualified technicians as being the necessary time period to recreate the energy into a transmitter – or more specifically – into your Safe Connect Plus+ Shields.

The Shields, which are actually carriers (like a programmed computer memory chip), harness and produce energies which are subtle and understated and which, in turn, interface and interact with your own personal electro-magnetic field, or your biofield. It works something like a tuning fork. Ultimately, the movement and pattern contained in the EMF Resonance Shield produces an advantageous balancing effect on all matter and physical structure. Safe Connect Plus+ Shields have a complementary energetic relationship to the energy patterns of all living things, from water and nutrients to pets and the human body. That means that there's synergy, or, the Shield is working with your body's energy.

The molecules contained in Safe Connect Plus+ shields have a particular mix of specific harmonic frequencies, which are produced and sealed within the Safe Connect Plus+ shields when they are produced in the energy-imprinting chamber. At the time when the molecules are trapped within the Shields, the photons, or particles of light energy, which are generated by moving electric charges, elicit a chain reaction within the Safe Connect Plus+ shields. The shields will never lose the frequencies they are charged with. Through a special process of raising the electrons to a higher energetic pathway, the photons can then, in turn, activate other molecules.

When all is said and done, the Safe Connect Plus+ shields causes regulating and balancing effects to come into play and this helps to remove stress. Stress is at the root of many chronic degenerative diseases. As a result, there is harmony and balance within your body by wearing a Safe Connect Plus+ shield or by placing a Home shield in a light socket within your home or office. Many testimonials are shared among the users of our shields and though we don't make claims – our customers do that for us!
