

NATIONAL INSTITUTE OF HEALTH ACKNOWLEDGES THE HUMAN "BIOFIELD"

In 1994, the National Institute of Health in the United States wrote about a new term, the "Biofield", to describe a growing body of research concerning a subtle field of energy that emanates and extends beyond the physical body. The biofield is currently being studied and utilized in many arenas, especially in preventative medicine and also many natural healthcare modalities. When our biofield is out of balance, we're out of balance. You can also say that when a gland or an organ is out of balance and stressed, that area of the biofield will also show energetic weakness. Disease, fatigue, and apathy all reflect a compromised biofield.

When improvement takes place within the biofield, it can increase our mental and physical performance, reinforce our natural immunity to stress and enhance our sense of wellbeing. The biofield can be strengthened by faith and emotions (peace, love and joy), thus affecting the glands, organs and all systems of the body in a very positive way. Even nutritious raw fruits, vegetables, seeds, nuts and sufficient amounts of pure water when consumed can impact the biofield in a powerful way.

In modern society our biofields are continually being negatively impacted by flickering computer monitors, irate bosses, cell phones, emotional stress, television and traffic jams, not to mention a chemical laden food chain and synthetic clothing which covers our bodies. We are literally bombarded with negative frequency fields that wear us down.

The Safe Connect Plus+ product line has been electronically encoded with over 200 resonating frequencies, and its powerful emanating field connects with the body and its biofield. This encoding is designed to bring balance and restoration to the human biofield and "tune-up" the glands, organs and central nervous system. The Safe Connect Plus+ shields harmonize with your energy and help you to abound successfully in a stressful world. Those who have used Safe Connect Plus+ worldwide testify to the positive impact they experience by using this advanced technology.

Consider utilizing the Safe Connect Plus+ products, which transform energy patterns like fine tuning forks, and help establish a strong biofield to optimal functionality. Because of the "soup" of radio, micro and electrical waves in which we live and even drive in, we need an answer to this problem and Safe Connect Plus+ EMF devices were created for this need. The results have far surpassed all expectations of the inventors and consumers. Testimonials are on the web site for viewing and one can see that the range of efficacy far surpasses just simple balance. Satisfaction guaranteed!
