

# Product Description

## **Cell Phone, Cordless Phone & Bluetooth Shields**

These EMF (Electro-Magnetic Field) Shields can be attached to all cell and cordless phones, blow dryers, and on the backside of watches. The shields contain 200+ encoded balancing frequencies that transform heavy mobile phone radio-microwave transmissions into a subtle harmonious energy. Safe Connect Plus's EMF Resonance Shields help neutralize stress when phones are held to the head and anywhere else on the body. What was harmful is now reformatted to strengthen the body.

The Bluetooth Shield is proportional to a Bluetooth headset. It is just as effective. These shields never deplete, thus never need to be replaced. Safe Connect Plus's EMF Shields have been clinically tested and approved using Live Blood Cell Analysis, Thermography, Electro-Dermal Screening, and professional testing with Applied Kinesiology/Muscle Response Testing with trained physicians.

Once attached, the shields don't effect the operation to the phone, watch, blow dryer or small appliances.

## **Body Shields for Adults and Youth**

Safe Connect Plus's Body Shield (200+ Encoded Balancing Frequencies) is worn around the neck with an adjustable cord. A small addition to the cord is the button shield that sits directly on the spine. This direct contact with the central nervous system yields greater results. Many individuals experience a sense of wellbeing, balance, relaxation, and new circulation where there had been constriction from stress. Some individuals experienced tingling or even a temporary sense of lightheadedness or euphoria due to the removal of built-up static electricity (EMFs) in their nervous system.

A common response is a sense of having more energy, better sleep, less general pain and mental clarity. Occasionally, a person who is very toxic when wearing the shield may experience the elimination of toxic waste from their body. Results may vary.

## **Laptop and Microwave Shield**

Laptop and Microwave Shields are encoded with 200+ balancing frequencies. Safe Connect Plus's Laptop/Microwave Shields actually transform the hazardous microwave fields from the appliance into a powerful balancing field of protection around you. It is recommended to use an additional Safe Connect Plus Home Shield plus the Microwave shield for best results. When applying shields use a Velcro sticker for easy removal. This is convenient when using a laptop or for traveling convenience. Placement for a microwave oven is on the front door or window. When mounting Laptop shields place where the least amount of heat emanates because the shield will soften with prolong exposure to heat.

Other shield applications when applied to water machines, water's main pipes and showerheads the drinking and bathing water are also encoded.

## **Home Shields**

Safe Connect Plus Home Shields soften and reformat the electrical emissions with 200+ encoded balancing frequencies for home or office. This thoroughly exposes the electrical current to a natural subtle energy field of harmonious waves. Each Home Shield unit carries the same energy field as Schumann Resonance. This field is composed of a range of frequencies that are vital to our health and keep us safe and "grounded".

Even though these plug-in units are created with an LED bulb, the bulb will eventually go out, but the energetic harmonious field will not stop being emitted – thus they last forever. Just plug it into any outlet and it will make that home and office safe from the weakening effects of electrical wiring, appliances, computers, vacuum cleaners, etc.
